Triple-deckers

Take your event to the next level

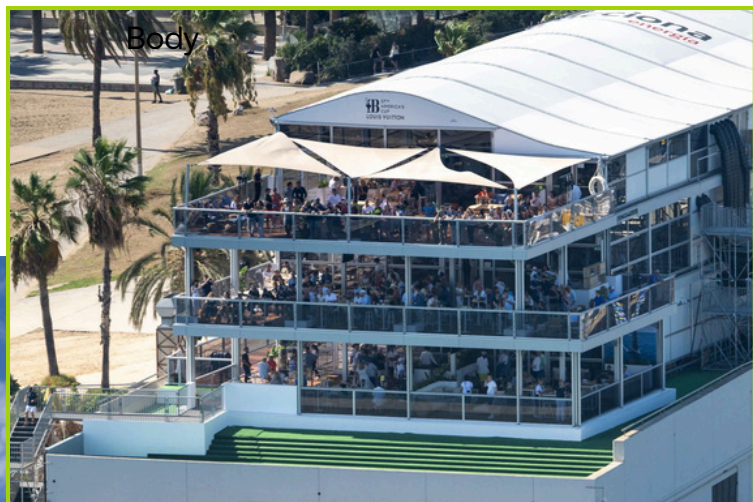

When two floors aren't enough, go for a triple-decker. With three layers of custom-built space, our triple-deckers not only provide hundreds of extra square meters but also offer endless opportunities. Imagine rooftop terraces with panoramic views, exclusive VIP lounges, or a stunning open space where creativity can truly thrive. Whether you want to impress your guests, maximize visitor capacity, or make the impossible possible—a triple-decker guarantees a lasting impact.

Why Choose a Triple-decker for your next big event?

- **More m², same footprint:** Make the most of limited space within event zones.
- **Create lasting experiences:** Imagine a partly covered rooftop terrace with breathtaking views, or an atrium-style open space - the sky is the limit.
- **Custom-built for your needs:** Triple deckers are always tailor-made, and unique. If you can dream it, we can build it.
